Subject: Closure request for 2RP-5159 Huber Central Tank Battery Facility

Mr. Boyle,

OCD has received the closure request for 2RP-5159 Huber Central Tank Battery Facility, thank you. At this time this closure is not approved for the following reason:

Based on the BLM Carlsbad Field Office Karst map, the Huber Central Tank Battery facility is located in a BLM designated High Karst Area and according to this information, the applicable NMOCD closure criteria is:

Chlorides <600 mg/kg, TPH <100mg/kg, BTEX <50mg/kg, Benzene <10mg/kg.

Further delineation and remediation are required.

Please let me know if you have any questions or need further assistance.

Regards.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
