All,

This C-141 will not be accepted from a contractor. OCD, in most instances has little to no regulatory oversight or authority with 3rd party contractors. It would appear this is Devon's fluid, being used on a Devon lease, so OCD considers Devon the Responsible Party, and Devon must submit the C-141. If Devon considers their contractor responsible for remedial action, that is between Devon and their contractor.

Amanda: This release is almost 9 months old at this point. Please submit the C-141 by COB today. If that is not possible, please contact me.

Joel: Your April 12 email subject line indicates the email is for the Tomb Raider, while the body of the email lists Cotton Draw 506. Extremely confusing.

This remediation plan will not be reviewed until the C-141 issue is resolved.

Thank you,

Good morning,

FLUID DELIVERY SOLUTIONS, LLC does not have an OGRID#. In order to process this C-141 I need that number. Why isn't Devon responsible ? Did it happen away from the site?

30-015-44811 TOMB RAIDER 1 12 FEDERAL #718H [316874]

Please find attached the *Site Assessment and Proposed Remediation Plan* along with the applicable pages from the Form C-141 that has been prepared for the Release Site known as the Cotton Draw Unit 506H (1RP-4995). The Release Site is located in Unit Letter "A", Sec. 1, Township 23 South, Range 31 East, on land administered by the New Mexico State Land Office. The release was originally reported by Devon Energy, as it was on one of their locations. With your permission, we ask that the original C-141 be replaced with the attached C-141, which is reflective of the responsible party.

If you have any questions or need any additional information, please feel free to contact me by phone or email. Thanks.

Respectfully,

Joel Lowry
