2RP-5441

I only uploaded pages 1-4 into well files and ADMIN. Orders. I am attaching the remediation C-141 (pg.5) on this e mail. I believe there should be other info to go with the report? So, I leave that for you all to do.

☺ And also data entry to remain in OCD permitting.

I did put the numbers for you all for easy reference. It does lack signatures from one of you, interoffice.

Oh, and I do have in the L drive as well, it's #3 Remediation.

Thanks

All,

This C-141 will not be accepted from a contractor. OCD, in most instances has little to no regulatory oversight or authority with 3rd party contractors. It would appear this is Devon's fluid, being used on a Devon lease, so OCD considers Devon the Responsible Party, and Devon must submit the C-141. If Devon considers their contractor responsible for remedial action, that is between Devon and their contractor.

Amanda: This release is almost 9 months old at this point. Please submit the C-141 by COB today. If that is not possible, please contact me.

Joel: Your April 12 email subject line indicates the email is for the Tomb Raider, while the body of the email lists Cotton Draw 506. Extremely confusing.

This remediation plan will not be reviewed until the C-141 issue is resolved.

Thank you,

Good morning,

FLUID DELIVERY SOLUTIONS, LLC does not have an OGRID#. In order to process this C-141 I need that number. Why isn't Devon responsible? Did it happen away from the site?
