Ms. Gonzales,  
OCD has received your Final C-141 and closure request for RE: COG - WD McIntyre E SW Tank Battery (**2RP-4945**) 8/18/18, thank you. This closure is approved. Federal sites require like approval from BLM.  
Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
