Jacqui,

Thank you for relining the legacy pit, constructing the berm, and following through with the necessary remediation process. As I stated on the updated email on 3/18/2019, the OCD won't be able to approve closure until all remediation has been accomplished in the future including the deferred area. Once the deferred "L2" location has been remediated, we will be able to move ahead on closure for this spill.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
