**Attachments:** Deferral Approval - COG - McIntyre B #10 - (2RP-5127) 6.6.19.pdf

Clair,

Tetra Tech's closure report for the above release, requests to defer the remaining impact until site abandonment due to safety concerns regarding pipeline encroachment. The area requested for deferral is identified on the site map as "NSW-1". The area has been delineated and documented in the report. At this time, OCD approves this request. The Final Report C-141 will be accepted for record and marked accordingly. The release will remain open in OCD database files and reflect an open environmental issue. This is a Federal site and will require like approval from BLM.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
