Good morning Team NMOCD/BLM,

Kindly accept this email notification for commencement of remediation actions on the subject line referencing North Indian Flats Fed #5 and attached C-141. HydroChemPSC will be remediating the affected area in reference beginning Tuesday 4/23/19. We anticipate pulling confirmation grab and composite release samples on midday Thursday 4/25/19 for expedited rush analysis. Pre and Post photos of the excavation with scaled site map depicting sampling diagram will accompany the final remediation closure report upon completion of the site. Additionally, site is deemed for restore and reclaim reclamation upon completion.

Should there be any questions. HydroChemPSC onsite PM will be Kevin Claytor cc'd and cell contact (903)-424-7505.
Thanks

Donald Melancon
