Attachments: Deferral Approval - COG-Blue Thunder Fed Com #1 - (2RP-5161) 6.24.19.pdf

Clair,

Tetra Tech's deferment report for the above release, requests deferment of remaining impact until site abandonment. The areas requested for deferment are **inferred** to be "North Sidewall 1" and "South Sidewall 1". At this time, OCD approves this request. The Final Report C-141 will be accepted for record and marked accordingly. The release will remain open in OCD database files and reflect an open environmental issue. This is a Federal site and will require like approval from BLM.

Please include a short paragraph in future deferment reports outlining exactly which sample points by **name** are being deferred and explain **why**. "Remaining impact" and "Site Abandonment" don't explain exact sample points or why you are asking for the deferment.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
