Subject: RE: Release Notification-Nash Draw 8 Fed 001 SWD 10-22-17 (30-015-41351)

RE: XTO * Nash Draw 8 Federal SWD #1 * 30-015-41351 * 2RP-4472

Amy,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4472, please refer to this tracking number on any and all submissions sent in to the OCD. **Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 12/3/17.**

Amy also please note: I am hoping that this request won't seem too outlying to you since we have discussed this kind of stuff over the phone before a while back.

When an Initial/Final C-141 (in this case you only sent in an Initial C-141) is submitted for a release that is stated to be fully contained within secondary lined containment, OCD is asking that operators provide a written statement within the Initial/Final C-141 (**attesting to the integrity of the liner and stating that you yourself or another member of your organization ((that has been informed/educated on what to look for)) have inspected the liner, also if the containment involves any fill material OCD needs a statement on the form saying that all fill was removed and replaced**).

Aside from that request, OCD is also requesting for all operators to include two or 3 photos in the body of the email they send to us showing the condition of the battery before and after it was remediated/inspected. So what I mean by that is take the photos and drop them straight into the body of the email (just paste it right before where you have your signature block with your name and your title description). We want to ask all operators to include those since we have asked some of them to do so. So please if you could just drop us a few photos for this location, not as attachments but straight into the email, that would be awesome. One shot of the location sign and then like I said 2 or so more to represent how the battery/lined containment area looks pre and post.

So in the case of this release since only an Initial C-141 was submitted to OCD thus far, OCD would like to see the written statements (mentioned above) included in the Final C-141, along with the photos that were also requested be sent to us in the body of the operator's email.

If you have any questions or concerns regarding this request please let us know.

Thank you,

Crystal Weaver

Good Afternoon,

Please find attached the initial form C-141 regarding the referenced accidental release event. As always, thank you all for your help and have a good weekend.

Respectfully,

Subject: Release Notification-Nash Draw 8 Fed 001 SWD 10-22-17 (30-015-41351)

Good morning,

This is sent as notification of a release of produced water, discovered yesterday at the referenced site, to the lined containment in an amount greater than 25 barrels. Further information will be submitted with a C-141. Please call with any questions or concerns.

Respectfully,

Amy Ruth
