OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** Release notification - Remuda Basin 32-23-30 (API for PLU CVX JV RB 002H: 30-015-40341)

Good afternoon, this is sent as notification of a release of fluids greater than 25 barrels at the referenced facility. We've included the API for the PLU CVX JV RB 002H since it shares a pad with the battery. Source of release has been stopped and all fluids recovered. Details will be provided with a form C-141. Please contact us with any questions.
