Hello Mr. Neel,

OCD has received the Remediation Plans for 2RP 4796 & 2RP 4763, thank you. These plans have been conditionally approved. Please let me know if you have any questions.

Best Regards,

Maria Pruett

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Maria,

We have a remediation going on next to the attached sites and would like to remediate all 3 in a row to save time and resources. We have received BLMs approval for both work plans. Is there any way

you could review these sites at your earliest convenience.

Thank you and let me know if you have any questions.

**** External email. Use caution. ****

BLM accepts and approves the proposed work plan as written. Must have approval of the work plan from NMOCD prior to conducting work.

Thank you.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Mike and Henryetta,

Please find the attached Delineation Workplan and remediation proposal for the COG Copperhead 31 Fed Com #001H (2RP-4796). COG is requesting that you review this plan and is looking forward to the OCD's and BLM's approval.

Mike, this is one we discussed at your office on August 9, 2018. Henryetta, this is the leak near the entrance road that we discussed.

If you have any questions, please let me know.

Thanks, Cliff
