RE: 2RP-5194

Adrian,

Your request for an extension to August 1st, 2019 is approved.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** [EXT] URGENT - Extension request - James Ranch Unit DI2 #193H (2RP-5194)  
**Importance:** High

All,

XTO is requesting an additional extension at the James Ranch Unit DI2 #193H (2RP-5194) from the deadline of June 1, 2019. The release was discovered on January 4, 2019. XTO is unable to start site excavation activities due to flow back occurring until the end of May. Multiple wells are being drilled and completed on site. XTO requests an extension of this deadline until August 1, 2019.

Thank you
