**Subject:** RE: [EXT] RE: South Culebra Bluff 5B to Candelario 4" Polyline Release, (2RP-4737) Chevron (Legacy Rockcliff Spill) 4-26-2018

Rebecca,

Any remediation plan that is sent to the OCD for review needs to have pages 3, 4, and 5 completed. Additionally, any closure plan that is sent to the OCD needs to have page 6 filled out and completed.

It includes Site Assessment/Characterization and Remediation Plan information. Also, it includes a Characterization and Remediation Plan Checklist to insure all of necessary items are included.

Please let me know if you have any questions.

Thank you,

Robert J Hamlet

Good morning-  
Will you please clarify if we should complete these forms based on the data collected to date?

Thank you,  
Rebecca

Rebecca,

Can you please fill out pages 3,4, and 5 of the C-141 form to move forward with the remediation plan review.

Thanks,

**Subject:** RE: South Culebra Bluff 5B to Candelario 4" Polyline Release, 2RP-4737

Rebecca,

After looking at documents in the OCD RP-Folder, I was unable to find the SMA Work Plan (Dated July 4, 2018) that was submitted to the BLM. Could you please send us a copy of that report ASAP. Once the work plan is received, the OCD will review the plan and communicate its findings.

Due to the severity, sensitivity, and depth to ground water at this spill site, we will mostly likely not be able to approve a deferral request.

Please keep the OCD updated on major status changes.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** [EXT] South Culebra Bluff 5B to Candelario 4" Polyline Release, 2RP-4737

Mr. Hamlet,  
Please find attached a Site Status Letter regarding NMOCD Case No. 2RP-4737. A release at this location was reported to the NMOCD in April 2018. Reports documenting initial cleanup activities were submitted to the NMOCD in July and September 2018. Chevron acquired the lease for this well in October 2018, and is respectfully requesting a review and determination of the submitted reports.

Please let us know if you have questions.

Best Regards,
