Subject: Tucker Draw 9-4-6H Liner Inspection

Mr. Bratcher

On August 3rd, 2019 a broken sight glass allowed 20 bbls of fluids to leak into lined secondary containment at the Tucker Draw 9-4-6H, all fluids were recovered and returned to production. This incident has not yet been assigned an RP#, the C-141 has been submitted via NMOCD online portal.

This email serves as notification that this containment and liner will be inspected on August 9th, 2019 to document integrity of the liner and close this incident. Please let me know if NMOCD would like to be present for inspection.
