Subject: [EXT] RE: Closure Report - Water Inj. station

Hi Mike,

Just an FYI - I had a conversation with Dillian Rose-Coss in Santa Fe a couple of weeks ago and he is the one that told us that only spills that happened after July 1st should go into the system and any before that should still be handled by email. That is why we were unclear on the process and I'm sure we aren't the only ones that were told that.

THANK YOU,

LESLIE GARVIS

Johnny,

Anything that comes in with any portion of the C-141 will need to be submitted through the Fee Portal, even the pre "new rule" projects. I just talked to Mr. Billings and he indicated that once submitted through the fee portal, send him an email with the transaction number so he will know it is there.

Thanks,

Mike Bratcher

Subject: [EXT] RE: Closure Report - Water Inj. station

This particular remediation was prior July 1st, as well as the August 2018 date. I was under the impression that these remediations were to be "grandfathered" in, and completed by the previous methods. Do **all** submissions (notifications, workplans, closure reports, etc....) have to be submitted through the new system?

This particular remediation is one that needed to go to Mr. Billings for his approval/closure. I added the district 2 office, because this was the original C-141 was submitted.

Subject: [EXT] Closure Report - Water Inj. Station

Mr. Titsworth,

As of July 1st, Application for administrative approval of a release notification and corrective action will require the operator to go to <https://wwwapps.emnrd.state.nm.us/OCD/OCDPermitting/Default.aspx> and provide payment for review of forms and/or documents.

Attached is a news release for Senate Bill 553 which establishes a fees schedule for the NMOCD. As of today, the fees go into effect and the payment is live on the OCD website. In order to ease some of the transition, NMOCD has put a [FAQ announcement](#) on our website.

Regards,

Victoria Venegas

EMNRD

OCD-District II

Artesia

Victoria.Venegas@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
