**Attachments:** Remediation Closure Denied - Chisholm - Minis Fed Com East Pad - (1RP-5400) 10.8.19.pdf

Tim,

The final report must include photographs of the remediated site and a description of all remedial activities. The report says, "the location was remediated successfully by the initial actions performed by CEO and its contractors". What were those actions? Was it scraped or was it just treated with oxidizers? Additionally, we will need signed and dated C-141 (Pages 3-6) for a remediation closure report.

Please let me know if you have any further questions.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
