Surface Owner: Sta	te 🗵 Federal 🗌 Ti	ribal 🗌 Private (A	Vame: BLM)		
Nature and Volume of Release						
Mat			calculations or speci	cific justification for the volumes provided below)		
Crude Oil		Volume Released (bbls)		Volume Recovered (bbls)		
▼ Produced Water	Volume Release			Volume Recovered (bbls) 10		
Is the concentration of total dissolved sol in the produced water >10,000 mg/l?				S) Yes No		
Condensate	Volume Release			Volume Recovered (bbls)		
☐ Natural Gas	Volume Release	d (Mcf)		Volume Recovered (Mcf)		
Other (describe)	Other (describe) Volume/Weight Released (provide units)			Volume/Weight Recovered (provide units)		
Cause of Release Discharge line from transfer pumps had a pin hole leak due to corrosion. 10bbls of produced water was released inside the containment and recovered by vacuum truck. A 48-hour advance notice of liner inspection was provided by email to NMOCD District 2. The liner was visually inspected and determined to be inadequate. Liner is scheduled for repair and returned to impervious condition. XTO requests deferral of potential impacts under liner until facility upgrades or is abandoned. It is XTO safety policy to restrict disturbance to within 3 ft of equipment. The containment is congested by lines, tanks, and equipment making access for vertical delineation via heavy equipment or drilling rig problematic.

Initial Response						
The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury						
▼ The source of the rele	ease has been stopped.					
➤ The impacted area has	s been secured to protect human health and	the environment.				
		likes, absorbent pads, or other containment devices.				
All free liquids and recoverable materials have been removed and managed appropriately.						
If all the actions described	d above have not been undertaken, explain v	why.				
N/A	i above have <u>nov</u> been undertaken, explain	why.				
Per 19.15.29.8 B. (4) NM.	AC the responsible party may commence re	emediation immediately after discovery of a release. If remediation				
has begun, please attach a	a narrative of actions to date. If remedial	efforts have been successfully completed or if the release occurred				
		lease attach all information needed for closure evaluation.				
I hereby certify that the infor	mation given above is true and complete to the l	pest of my knowledge and understand that pursuant to OCD rules and				
regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have						
failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In						
addition, OCD acceptance of and/or regulations.	a C-141 report does not relieve the operator of	responsibility for compliance with any other federal, state, or local laws
