RE: 2RP-5287

Kyle,

Your request for an extension to September 14<sup>th</sup>, 2019 is approved.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Importance:** High

Mike,

XTO is requesting an extension to the 90-day timeline for completed remediation and closure report submittal required in 19.15.29.12.B.(1) NMAC at the Poker Lake Unit 23 DTD 108H (RP# 2RP-5287). The release was discovered on February 13, 2019. Drilling, completion and flow back activities on and around the site, as well as equipment located at the site have prevented XTO from completing preliminary sampling and remediation activities. The 90-day deadline from the release date is May 14, 2019. XTO request an extension of this deadline until September 14, 2019.

If you have any questions, please let me know. Thanks. --Kyle
