Subject: Closure - Humble Yates -Maverick Natural Resources - (2RP-5384) 1-17-2019

Rebecca,

It sounds like the interior of the berm was hand excavated. Was this just the impacted soil on top of the liner? If the liner in the containment area was breached, the area inside the containment area will need to be delineated and sampled underneath the liner. After looking at the Site Plan Map, all 5 of the points appear to be off pad and would require a minimum of 4 feet non-waste containing uncontaminated, earthen material (600 mg/kg Chloride, 100 mg/kg TPH, etc.). Samples weren't taken down to 4 feet on any of the sample points. Can we assume rock refusal was encountered where the sampling points ended? If this is the case we may need you to use a hydrovac to remove any remaining contaminated soil in place.

We may be able to defer the clean-up of contaminated soil in the berm on the pad, but the contamination in the pasture will need to be fully remediated.

Please make an attempt using a back-hoe/track-hoe to remove the contaminated soil.

If the bottom sample is "hot" when you hit rock refusal, a hydrovac will need to be used to clean up the remaining contaminated soil on top of the rock. Additionally, a hydrovac may need to be used to remove soil around marked flow lines.

Let me know if you have any questions.

Thanks,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Good Morning,

All remedial activity for this site has been completed, and I have attached the closure documentation for your records. The "Closure" page of the C-141 is signed and in the body of the closure report. Please review and feel free to contact me with any questions. Thank you for all of your assistance.

Best Regards,

Rebecca Pons

Subject: [EXT] Humble Yates -Maverick Natural Resources Work Plan

Good Morning,

Has there been a permit (RP) Number assigned to this work plan? Please advise me, and I will include it in the closure report.

Thank you
