Ms. Haskell,

Your requested extension to September 19, 2019 COG - Canvasback 13 Fed 2H (30-015-40538) (2RP-5008, 9-28-2018) and (2RP-5016, 10-6-2018) is approved.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Ms. Venegas,

Under the new spill rule a closure report is due for the above release on 8/19/19. COG has just completed remediation activities at the above release location. COG is requesting an one month extension until September 19, 2019 in order to prepare and submit a closure report.

Mr. Hamlet,

Under the new spill rule a closure report is due for the above release on 5/19/19. COG has submitted a work plan which was approved by the NMOCD on February 18, 2019, however COG is still awaiting approval from the BLM. We can't start remediation activities without BLM approval. COG is requesting a three month extension until August 19, 2019 in order to hopefully obtain BLM approval and conduct remediation activities and prepare a closure report. If we do not obtain BLM approval we may have to request an additional extension. Please let me know if you have any questions.
