Subject: (Extension Request) Cabo Wabo 25 Federal Com #003H 05-17-2019

Ms. Venegas,

Under the new spill rule a closure report is due for the above release on August 15, 2019. COG is currently conducting remediation at risk would like to request an three month extension until November 15, 2019 to complete remediation activities and prepare a closure report.

Thank you,

Mr. Bratcher/Mr. Amos,

Please find the attached C-141 for your consideration. Also, attached is the calculation sheet to determine the estimated release volume. The liquid lost estimate is based on the spill dimensions, estimated depth of fluid (wet soil depth) and type of formation. The spreadsheet will calculate the volume lost in the ground and does not include the recovered amount in the calculation. The calculated volume in the ground and the volume recovered were added together and reported on the C-141. If you have any questions or concerns please do not hesitate to contact me.

Thank you,

DeAnn Grant

HSE Administrative Assistant
