Victoria,

The confirmation samples are the ones in the closure report. Apparently, Kathy labeled them as B1-B5 on the diagram, but when sent to the lab they were just labeled SP1-SP5. I apologize for the confusion. I hope this clears it up. Let me know if you have any further questions.

Thanks, Cliff

Mr. Brunson,

I can't find the lab data results from the confirmation samples B1, B2, B3, B4 and B5 in the Closure Report for Bell Lake 27 Federal Battery **1RP-5182**. Please clarify.
