### Stratojet 31 State Com #006H NMOCD Ref. No. 1RP-5223

Ms. Groves,

OCD has received your Deferral Request for Stratojet 31 State Com #006H NMOCD Ref. No. **1RP-5223**, thank you. This deferral is DENIED for the following:

- The release has not been fully delineated. By Rule NMAC 19.15.29.12.: “The DEFERRAL may be granted so long as the contamination is fully delineated and does not cause an imminent risk to human health, the environment or ground water”

OCD requests this site be fully delineated to closure standards in Table I of 19.15.29. All samples must be under the limit to verify the spill has been vertically delineated before we can approve a deferral. Lab data needs to be provided as evidence of delineation efforts.

Finally, note this report is incomplete. Anytime we receive a Characterization/Remediation Plan/Deferral Request/Closure Report, we will need the corresponding pages of form C-141 in with the plan.

Regards,

Victoria Venegas

*OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.*
