Good morning Robert,

I was looking through the deferral report for Queenie 15 Fed #1 (1RP-5624) they are asking to leave a large amount of TPH and Chlorides. I want to make sure we are on the same page. We don't have a problem with the deferral but would like more excavation on the west part near the release. Also adding micro-blaze to treat the TPH.

Please let me know what you were thinking about this deferral.
