Mr. Rau,

Your request for an extension to June 30, 2020 is approved. However be aware of the following: This release occurred in High Karst area which is considered an unstable area and requires the entire spill to be remediated to the most stringent cleanup levels of the spill rule.

If you need assistance, the current spill rule may be viewed here: <http://164.64.110.134/parts/title19/19.015.0029.html>

For further clarifications regarding the implementation of the spill rule, visit the OCD web site:

<http://www.emnrd.state.nm.us/OCD/documents/OCDInternalPolicy-SpillRuleClarifications.pdf>

Karst guidelines - For clarifications regarding the BLM Karst Potential Map, please contact the BLM CFO Cave Specialist:

Melissa B. Horn | Environmental Protection Specialist (Caves/Karst) Horn, Melissa mhorn@blm.gov

Thank you,

Note, however, the following: This release occurred in the Upper Karst area, which is considered an unstable area and requires that the entire spill be remediated to the strictest cleanup levels in the spill rule.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
