CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good afternoon Mr. Hamlet,

I have not seen a response on this extension. Do you happen to know where we stand with this extension. I was just wondering if I missed something from you.

Thank you sir and have a Happy New Year!

Subject: Nicholas BJ Pipeline (nAPP2127158509) Characterization/Remediation Plan Extension Request

Good Morning,

EOG Resources, Inc. respectfully requests an extension to March 22, 2022, for the Characterization/Remediation Plan for the below listed location.

Nicholas BJ Pipeline
nAPP2127158509

Due to encountering multiple unmarked lines in the investigation area, the environmental consultant has additional time is needed to safely identify all lines and to allow time for further assessment activities. The consultant believes that March 22, 2022, is an attainable timeframe to safely complete the Characterization/Remediation Plan.

Thank you,

Tina Huerta
