13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Per conversation between NPC reps Matt Lee and Brian Huzzey with BLM rep Jim Amos on 5/28/04, cmt did not circulate to surface on the production string of subject well. CBL run on 5/28/04 showed "some" cmt as high as +/- 1300'. Cmt is over 200' into surface pipe.

ACCEPTED FOR RECORD

JUN - 7 2004

ALEXIS C. SWOBODA  
PETROLEUM ENGINEER
