13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We are in the final stages of obtaining a Class I UIC permit for this well from the New Mexico OCD. Our plan is to hold this well in reserve as an emergency option in the event one of our other two injection wells is rendered unusable. We would like to TA this well until and unless it is needed to dispose of wastewater.

** Subject to providing a copy of pressure test chart.*
