13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation wishes to amend the Surface Use Plan to change the access road. The road will by-pass the water tank in Sec. 29 at the request of the rancher. Beginning in Sec. 28, T5S-R26E, the road is staked on the north side of the road in the SW1/4NW1/4 going north into the NE1/4NE1/4 of Sec. 29 around the tank on the NE side. The road will then continue the original route in Sec. 20, T5S-R26E. Another change to the access road will be made at the electric fence. A new road will be built before crossing the gate at the request of the rancher. The road will go west approx. 9,734.1' in Sec. 19 and cross into Sec. 24 for 425.5' then turn and follow the original route into the location.

SEE ATTACHED PLATS

Thank you.

14. I hereby certify that the foregoing is true and correct. Electronic Submission #18388 verified by the BLM Well Information System For YATES PETROLEUM CORPORATION, sent to the Roswell Committed to AFMSS for processing by Linda Askwig on 02/10/2003 (03LA0039SE)
