Eddy County, New Mexico
Undesignated Cottonwood Draw-Upper Penn Gas (97354), and
Wildcat-Atoka Gas Pools*

Dear Mr. Farris:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303C.(1), the maximum amount of oil and gas that may be produced from the well shall be determined by Division Rules and Regulations.

Assignment of allowable to the well and allocation of production from the well shall be done after testing of all intervals to be commingled. The applicant shall submit the allocation percentages to the Division within 60 days following completion of this workover.

This commingle permit and these allocation percentages shall be amended only with written permission of the Division. In addition, if revenue interests are not common within this well in all pools to be commingled, allocation percentages may be assigned or amended only after notifying all revenue interest owners in writing, with 20 days opportunity to object.

REMARKS: The operator shall notify the Artesia District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303.C.(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on November 9, 2004.
