	<input checked="" type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletes horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

OPL is requesting a variance to the BLM reserve pit construction standards. Due to past experience in the area, when constructing the reserve pits we expect to encounter rock at a depth that would not allow a sufficient depth for a 100% cut without blasting. If this occurs, OPL requests that we be allowed to construct pit walls. There will be an adequate amount of material to construct the walls. Prior to closing the pits, the contents will be hauled to an approved disposal.

14. I hereby certify that the foregoing is true and correct
