13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work)\*

Mack Energy Corporation is requesting approval to vent gas on the Elk 22 Federal, Lease NMNM100844.

There is not currently a gas meter on this lease. This lease is capable of producing 1 MCF per day. The cost of running a gas line and cost of a meter, makes it uneconomical to sell gas from this well.
