A truck had driven over an above ground ploy line causing damage to the line releasing 100 bbl of produced water onto the road with 0 bbl recovered. Devon lease operator arrived on location to shut off all transfer pumps going into that line and isolated the leak. Soil samples will be gathered as per the request from the BLM representative.

Describe Area Affected and Cleanup Action Taken.\*

Shut off all transfer pumps going into that line & isolated the leak.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
