API: 30-015-10404

Operator,

The NMOCD District 2 office is in receipt of an Initial Report C-141 reporting a release of produced fluids on 3/03/2005 at the above referenced well site. As indicated on this report, the release was contained inside a "secondary containment" and most fluids were recovered by vacuum truck.

This report is accepted with the following stipulations:

- 1. Impacted soils/materials be removed and hauled to disposal
- 2. Impacted area must meet RRAL for this site prior to replacing soils.
- 3. This office must be notified 24 hours prior to any remediation work being performed or samples obtained for analysis.
- 4. A Final Report C-141 be submitted outlining work performed along with documented analysis of samples obtained.

If I can be of assistance in this matter, my contact information is listed below.

Mike Bratcher
