Describe Cause of Problem and Remedial Action Taken.\*

This release was caused by a hole in the load line. Vacuum trucks were dispatched to recover standing fluid.

Describe Area Affected and Cleanup Action Taken.\*

The majority of this release occurred on pad however a streamer ran off location to the southeast. Concho had the release sampled and a work plan was prepared. The work plan was approved by the NMOCD on September 29, 2017 and BLM on October 16, 2017. TRC, on behalf of COG, preformed remediation activities in accordance with the approved work plan.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
