#### NATURE OF RELEASE

Type of Release: Crude Oil	Volume of Release: .14 bbls	Volume Recovered: 0
Source of Release: Flare	Date and Hour of Occurrence: 01/08/2018 – 1130 HRS	Date and Hour of Discovery: 01/08/2018 – 1130 HRS
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Email to Crystal Weaver and Mike Bratcher, Email to Amber Groves	
By Whom? Jason Wardell	Date and Hour: 01/08/2018 1544 HRS	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.\*  
N/A

Describe Cause of Problem and Remedial Action Taken.\*

Crew was onsite preparing to install hi level shut downs on the inlet separator. The crew did not follow procedure and closed a valve before shutting in the well. This resulted in sending fluid through the gas line to the flare. The fluid ignited causing a small fire below the flare which was extinguished by the crew onsite. During the event, approximately .14 bbls spilled onto location in the form of a fine mist.

Describe Area Affected and Cleanup Action Taken.\*

.14 bbls of oil in the form of a fine mist impacted the caliche directly north of the flare and remained on location. The top layer of caliche has been removed and disposed of properly at R360 and will be replaced with clean material.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
