OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Hamlet,

Please find attached a Site Status Letter regarding NMOCD Inspection No. iTM1734133839. Soil staining was observed during an NMOCD visit in December 2017. Chevron acquired the lease for this well in October 2018. We are respectfully a 12-month extension to address the staining violation.
