	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13 Describe Proposed or Completed Operation Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The proposed plan is to construct 1-4" SDR 7 poly line from the Pure Gold B Fed #16 to the Pure Gold B Fed #4 as laid out on the attached survey plat. This line will be used to transport fluids being oil, water and gas. The line will be 4527.3 feet in length. The pressure range of the line will be 50-125 psi. The pipeline will be located on the surface in Sec 20, T-23-S, R-31-E, Eddy County, New Mexico.
