Randy Dade
New Mexico
Oil Conservation District
811 S. 1st Street
Artesia NM 88210

Mr. Dade,

At this time I am requesting an additional 60 days to restore production of the following wells:

- Caroline No.3
- Caroline No.4
- MaryLou No. 2

The tubing and rods have been pulled and stacked at each well location. Additional equipment has been purchased to restore each well's production. This equipment includes pump jacks, rods, seating nipples, and tubing to replace bad order tubing.

Difficulties with rig availability, quality of work from hired contractors, and rain washing out roads have been some of the challenges completing the required work.

A new agreement with a contractor, Darrel Finney, has been made to complete the required work to place the three wells back into production.

Sundry Notices have been prepared to submit requesting additional time. Please accept this request for an additional 60 days to complete the work.

Respectfully,

David G. Hammond
