CBS respectfully request rescission of the previously submitted proposal to plug and abandon this well dated 7-7-2010.

This well has been approved by the NMOCD to be converted to a water injection well as per NMOCD order PMX-224 expiring 6-30-2012.

CBS proposes to restore the surface pad of this well to a condition that will allow a well service rig to move in and rig up on the well. CBS will then enter the wellbore and determine if the wellbore can meet the mechanical integrity requirements to be converted to a water injection well. If so, it will be converted as per the requirements of the NMOCD order PMX-224. If the well cannot meet these requirements, and no further commercial use of the wellbore can be identified, then CBS will submit a plug and abandonment procedure for the well by 6-30-2012.

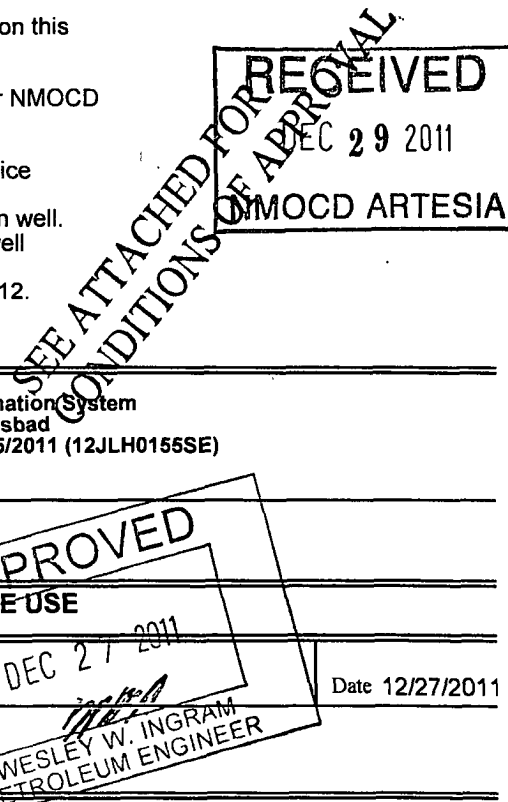

14. I hereby certify that the foregoing is true and correct.
