Operator,

The NMOCD District 2 office received a form C-103 reporting a produced fluids release along a flowline from this well. An OCD inspector had observed the release shortly after its occurrence. A letter was sent to you dated April 6, 2005 requesting a workplan for the remediation of this release. The workplan was to be submitted no later than April 22, 2005.

As of the date of this letter, no workplan has been received and an inspection of the site on 5/11/05 indicated that no remediation work has been performed.

Releases of produced fluids are to be submitted on Form C-141. If a workplan or satisfactory arrangements for remediation of this release are not made by May 30, 2005, further enforcement actions will be taken.

If I can be of assistance in this matter, my contact information is listed below.

Mike Bratcher
