13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well is presently completed as a Loco Hills Paddock well. We now propose to begin the down hole commingling process for the San Andres zone and Loco Hills Paddock zone. After receipt of NMOCD approval we will set a RBP above the Paddock and perforate the San Andres zone and test to establish a proper production allocation. After the testing period, we will recover the bridge plug and begin Down hole commingled production operation for the two zones into the existing Gissler A2 tank battery in Unit J, Sec. 14, T17S, R30E. We expect this process to take a few months. A copy of the NMOCD commingling application is attached for your record.

14. I hereby certify that the foregoing is true and correct
