Yates Petroleum Corporation request to extend the captioned well's APD expiration date for one (1) year to September 22, 2006.

Sources at Yates Petroleum Corporation have relayed information to me that they believe there will not be enough H2S anticipated from the surface to the Chester Formation to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118.

Sources available have been accessed for the captioned well. Information obtained determines the Site Ranking is 10 points. With this ranking, deep trench burial and capping will take place at pit closure. 12 mil liner requirements will be met.

Thank you,

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☒ or an (attached) alternative OCD-approved plan ☐.
