Dear Mr. Pippin

We received your application for approval of a non-standard location for this well.

However, upon review it appears that this well's producing location is less than 50 feet from its surface location, and that the well is a "deviated," not a directional well, *i.e.*, the departure from vertical was not intended.

Consequently, pursuant to Rule 19.15.16.A(3) the location is not unorthodox, and NSL approval is not required.

Sincerely

David K. Brooks
Assistant General Counsel
