13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

- SM Energy contracted Talon/LPE to do reclamation services on the ESDU No. 26, an active well.
- The location was downsized and the caliche was removed.
- The caliche was used to repair lease roads in the area.
- The well location was contoured to match the surrounding terrain and seeded on February 13, 2013 using BLM seed mixture LPC. The seeding label is attached.
