**NATURE OF RELEASE**

Type of Release	Produced water	Volume of Release	10bbls	Volume Recovered	8bbls
Source of Release	Injection line	Date and Hour of Occurrence	08-01-2013	Date and Hour of Discovery	08-01-2013 11:00am
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			
If a Watercourse was Impacted, Describe Fully.*					
Describe Cause of Problem and Remedial Action Taken.*					
A ditcher hit a buried fiberglass injection line. The line has been repaired and back in service.					
Describe Area Affected and Cleanup Action Taken.*					
Initially 10bbls of produced water were released from a fiberglass injection line that was struck by a ditcher. We were able to recover 8bbls of produced water with a vacuum truck. All free fluids have been removed. A work plan will be presented to the NMOCD/BLM for approval prior to any significant remediation work.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
