NATURE OF RELEASE

Type of Release: Produced Water	Volume of Release 200 bbls 210 bbls	Volume Recovered 200 bbls
Source of Release Poly Line Strike	Date and Hour of Occurrence: 3/3/14 12:30 pm	Date and Hour of Discovery 3/3/14 12:30 pm
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher of NMOC D Jennifer VanCuren of BLM	
By Whom? David Adkins	Date and Hour: 3/4/14	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A 4" poly line was stuck by the backhoe bucket causing 210 bbls of fluids to be released within the berm of the battery. Talon/LPE was on site. The wells were shut in and the line was immediately repaired. A vacuum truck was on site and recovered 200 bbls of fluid.

Describe Area Affected and Cleanup Action Taken.*

The release was contained within the excavation of the berm S-2 of the battery. The tanks are elevated so the fluid was contained in the low spot between the elevated tank pad and the berm.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC D rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC D marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC D acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
