Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully

RECEIVED
APR 21 2014

Describe Cause of Problem and Remedial Action Taken.*

A leak was found on a 4-inch poly flow line causing a release of 70 barrels of produced water. The well was shut-in, the line repaired and brought back into service. A vacuum truck was immediately called to the location and 2 barrels of fluids were recovered.

NMOCD ARTESIA

Describe Area Affected and Cleanup Action Taken.* Talon/LPE was contracted to complete the site assessment to determine appropriate clean up actions.

In February, 2014 Talon personnel mobilized to the site to begin excavation of the impacted areas in accordance with the New Mexico Oil Conservation Division (NMOCD) approved work plan. The impacted areas in the vicinity of sample points S-1 and S-2 were excavated to a depth of 1.5 feet deep. The areas in the vicinity of S-3, S-6 and S-8 were excavated to a depth of 0.5-feet deep. The impacted area the vicinity of sample point S-7 was excavated to a depth of 1-foot deep. The impacted soil was transported to NMOCD approved solid waste disposal facility Lea Land, LLC. The excavated areas were backfilled using clean material, backhauled from Lea Land and seeded using the recommended BLM seed mixture for the area. We request that no further actions are required.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
