A map is enclosed showing the Federal leases and well locations in Section 17-18, T20S, R25E.

The BLM's interest in these leases is the same. All three leases have a royalty rate of 12.5%.

**Oil & Gas metering:**

Oil, gas and water volumes from each well producing to this battery will be determined by using a test separator and test gas meter at the proposed facility so that one well is always producing through the testing equipment. Production will be allocated on a daily basis based on the most recent individual well test of oil, gas and water. Well tests for each well will be conducted at least once per month for a minimum of 24 hours each well. The oil and gas hydrocarbon production from the Limousine wells listed above will be commingled, measured and sold off lease using the well test method.

A central tank battery will be located at the Seven Rivers 17-1 in Section 17, T20S, R25E on Federal Lease NMNM99015 in Eddy County, New Mexico. A common gas sales meter associated with Occidental Petroleum Indian Basin Gas Plant will be installed in Section 23, T17S, R27E approximately 2.8 miles west of the Limousine Central Tank Battery. These meters will be calibrated on a regular basis per API, NMOCD and BLM specifications. The BLM and OCD will be notified of any future changes in the facility. Produced water will be trucked from location initially, and transferred to the MOC Federal #1 SWD in Section 7 Township 20S Range 25E in the future.

**Process and Flow Descriptions:**

Please see attached diagram for the Limousine CTB. The flow of produced fluids is shown in detail along with a description of each vessel.

The commingling of production is in the interest of conservation and waste and will result in the most effective economic means of producing the reserves in place from the affected wells and will not result in reduced royalty or improper measurement of production. The proposed commingling will reduce operating expenses as well as reduce the surface facility footprint and overall emissions.

OXY USA WTP LP understands the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument. These applications will be submitted separately for approval per NMOCD and BLM regulations.
