RE: NM118714
Rustler Bluff 34 24 29 Fed #2H
Eddy County, NM

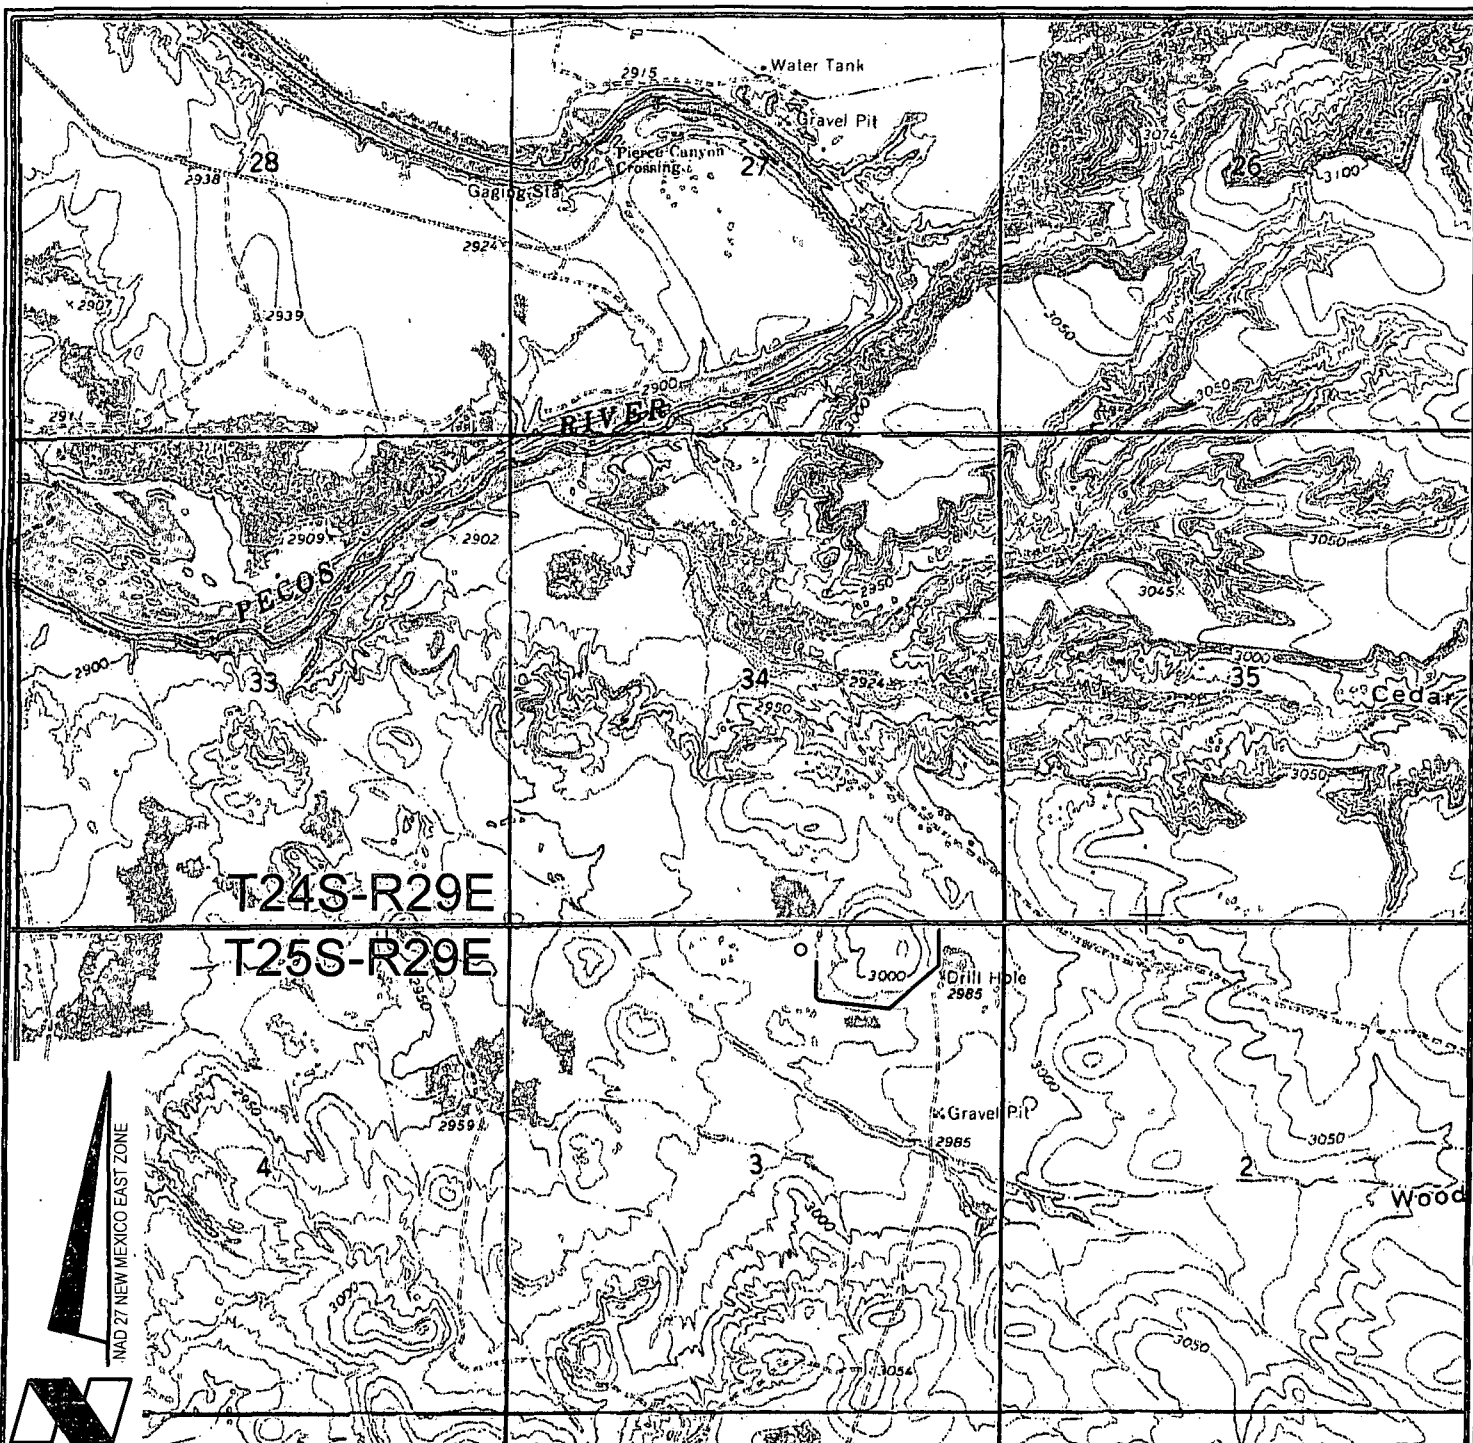

RECEIVED

Notice of APD correction

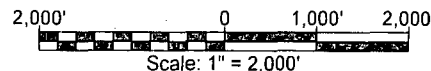

This letter is to advise you that the APD for the Rustler Bluff 34 24 29 Fed #2H has been appropriately corrected. Maps of access roads, flow lines and utility lines were replaced to show the routes that were actually approved, instead of the ones that were inadvertently placed in the APD by mistake. Attached are the adjusted maps and descriptions as they were placed in the APD. These should be considered replacement pages. ✓

Thanks
Jimmy J. Stubby

I, WM. J. DANIEL III, Registered Professional
Land Surveyor, do hereby state this plat is true
and correct to the best of my knowledge.

NOTE:

Please be advised, that while reasonable efforts are made to locate and verify pipelines and anomalies using our standard pipeline locating equipment, it is impossible to be 100 % effective. As such, we advise using caution when performing work as there is a possibility that pipelines and other hazards, such as fiber optic cables, PVC pipelines, etc. may exist undetected on site.

NOTE:

Many states maintain information centers that establish links between those who dig (excavators) and those who own and operate underground facilities (operators). It is advisable and in most states, law, for the contractor to contact the center for assistance in locating and marking underground utilities. For guidance, New Mexico One Call, www.nmonecall.org

DISCLAIMER: At this time, C.H. Fenstermaker & Associates, LLC has not performed nor was asked to perform any type of engineering, hydrological modeling, flood plain, or "No Rise" certification analyses, including but not limited to determining whether the project will impact flood hazards in connection with federal/FEMA, state, and/or local laws, ordinances and regulations. Accordingly, Fenstermaker makes no warranty or representation of any kind as to the foregoing issues, and persons or entities using this information shall do so at their own risk.
